INTRODUCING ECO TECH GLAZING

The first impression of your home is your front door. With an Eco Tech door you not only add instant kerb appeal to your property but you can enjoy all the added benefits that a modern composite door brings.

Using only the best quality components, Eco Tech doors are designed and manufactured without compromise.

With a range of styles, from country cottage and Edwardian townhouse to more contemporary offerings, you can be sure to find the perfect door for your home.

Energy efficiency

Save money and the planet with an Eco Tech door.

Energy efficiency is important to all of us. We all want to be more energy efficient, to reduce our fuel bills and to protect the future of our planet. An Eco Tech composite door is the perfect way to improve the energy efficiency of your home.

As standard, our doors without glazing panels enjoy an A++ rating while our glazed doors still carry an impressive A+ rating. You will also see a U-value rating on all our doors which is a technical measurement of heat loss through a structural element. The lower the U-value the better the energy efficiency.

PRODUCT RANGE OVERVIEW

If you are looking for style, choice and thermal efficiency then our composite doors are the perfect choice. With a range of colours and finishes to choose from, an Eco Tech door will help your home make the right first impression.

24. Clay
25. Sandstone
26. Mushroom
27. Putty
28. Irish Oak
29. Dusky Pink
30. Pale Pink
31. Marsala
32. Diablo
33. Mulberry
34. Very Berry

QUALITY CONSTRUCTION

Our composite GRP door is all about providing maximum kerb appeal with minimal maintenance requirements.

The construction of our door surpasses other alternatives, incorporating an LVL (Laminated Veneer Lumber) subframe to provide the strength and rigidity required for modern homes. The door protects the home from the elements, but will have minimal thermal expansion and contraction rates under extreme temperature variations which is perfectly normal. The PU foam core meanwhile reduces heat loss, providing a high level of thermal performance.

High density foam core
With 40mm of high density foam at its heart, your Eco Tech door provides unbeatable thermal performance

GRP skin in a range of colours and woodgrains
For long-lasting good looks and durability, Eco Tech doors use a GRP skin that is both hard wearing and low maintenance

Part M compliant threshold option
Not only ideal for wheelchair access, the low threshold of an Eco Tech door means easy access for everyone

Reinforced PVC-U door frame
Due to the reinforced PVC-U frame, your Eco Tech door meets unrivalled standards in security with very little maintenance.

EcoTech Glazing
The clear choice for modern living

OUR **TRADITIONAL DOORS**

Whether it's a Victorian home, a modern townhouse or a farmhouse cottage, our traditional range of doors with highly defined mouldings and realistic wood-grain surface embossing make a real statement.

THE HILTON

A STRIKING DOOR WITH A GRAINED FINISH & THREE PIECE GLASS DESIGN.

The design of The Hilton is a modern yet desirable composition. One long cassette and two smaller ones at the top and bottom add a great deal of punctuation to this door.

1. The Hilton in Marsala with Flair glazing style
2. The Hilton in Shadow

1 HILTON IN MARSALA WITH FLAIR

THE ECO TECH GUARANTEE

1. GRP Composite Door

The rigid construction and high density thermal core make the Eco Tech door an incredibly reliable and long lasting door. With a 10 year guarantee, you can rest easy with an Eco Tech door.

2. Surface Finish

With a 10 year surface guarantee, our hard wearing, low maintenance woodgrain GRP skin, provides you with confidence that your door will look this stunning for years to come.

3. PVC-U Door Frame

Our reinforced PVC-U frame requires little maintenance and provides a rigid frame for your Eco Tech door. Whether you choose white or a woodgrain foil our frames are guaranteed for 10 years.

4. Glazing

Our double glazed units are known for their beauty, quality and longevity. A 10 year guarantee on all our glazing units means excellent thermal performance and good looks for the future.

5. Hardware

Not only a matter of personal taste, our hardware range gives you choices in guarantees ranging from 5 years through to 10 years too. (See pages 60–67 for more details)

6. Threshold

Whether easy access or weather protection are your deciding factors, both our aluminium and PVC-U thresholds are guaranteed for a reassuring 5 years.

Our Guarantees

✓ 10 Year Structural Guarantee

✓ 10 Year Surface Finish Plated Guarantee

✓ 10 Year Foils Guarantee

✓ 10 Year PVC-U Surface Guarantee

✓ 10 Year Guarantee Against Glass Unit Failure

✓ 5 Year Mechanical Guarantee

HARDWARE UPGRADES

ULTION

USING UNIQUELY PATENTED SNAP SECURE TECHNOLOGY, ULTION IS ANTI-SNAP, PICK, DRILL AND BUMP RESISTANT, AND IS EASY TO FIT WITH NO ADDITIONAL PREP AND NO NEED FOR CYLINDER GUARDS OR SECURITY HANDLES.

Ultion is 3 star rated straight out of the box, with a lock down mode that activates an attack lock directly into the central cam, keeping an intruder out whilst still being unlockable from the inside - keeping homes and families safe.

Ultion locks are continuously tested; having passed the Sold Secure Diamond Test, it has not yet been beaten. And with the attack lock being housed in Molybdenum, one of the best superalloys in use today, it's little wonder that Ultion has been described as having transformed the door market.

THE £2,000 ULTION SNAP GUARANTEE

Ultion are offering a FREE 10 year guarantee to homeowners – just register at www.ultion-lock.co.uk within 28 days of installation, and if your home gets burgled as a result of your Ultion lock getting snapped in the following 10 years, you will receive £2,000.

Unique Features

Over 294,000 combinations produced by 11 pins

Double anti-snap protection, with 6 hardened steel rods and two plates in both ends

3 Star TS007 Test rating, Sold Secure Diamond rating

Thumbturn option available

Keycap

keycap Cap your keys

keyring Track your keys

Very few things go with us everywhere, our keys do. Keycap makes your keys look great and feel much more comfortable whether in your pocket or your hand. A wide variety of colourful caps are available, including glow in the dark options so they are easier to use at night.

Keyring brings all the benefits of Keycap with built in bluetooth. Track or activate the alarm in your keys from your phone and you'll never lose them again! To purchase the key caps please visit the Ultion website.

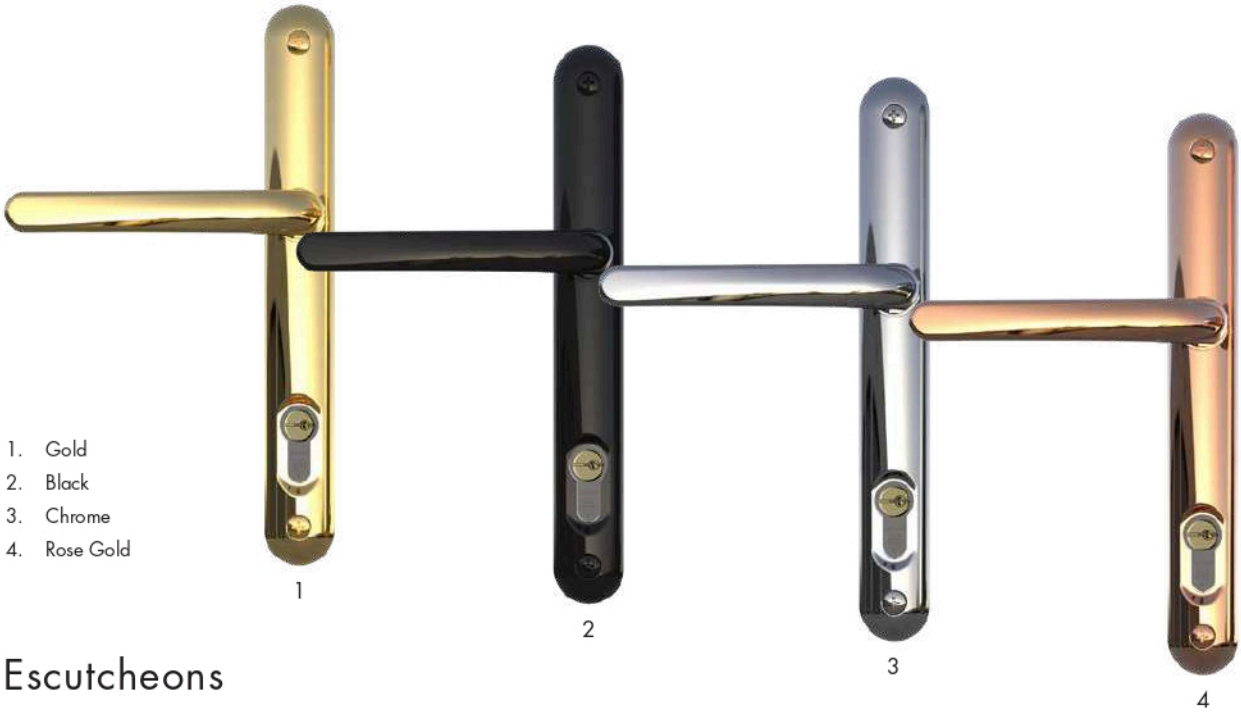

HARDWARE UPGRADES

Sweet

WHY SHOULDN'T EXTREME PERSONAL PROTECTION LOOK STUNNING? WITH SWEET'S UNIQUE 'EDGELESS' DESIGN, IT ALWAYS DOES. WHETHER YOUR HOME IS CONTEMPORARY OR TRADITIONAL, COUNTRY-STYLE OR MODERN URBAN, SWEET STAYS EFFORTLESSLY COOL.

Sweet carries multiple coatings of copper and nickel, ensuring it always looks great, even after being hammered with salt water for over 5000 hours. That's an incredible 20x more times than required for the flagship EN 1906:2012 corrosion standard. With 4 super sleek colours to choose from, there's a sweet for everyone.

LOW E, ENERGY EFFICIENT GLAZING

Glazing in a GRP composite door will always reduce its thermal efficiency, but by installing our Low E option wherever possible, we can help negate that effect, which is better for the environment and better for your pocket.

Guarantee against glass unit failure

Mechanical guarantee

FRAME, SILL AND THRESHOLD OPTIONS

To complete your door choice

Often it is the finishing touches on a project that make all the difference. To achieve the perfect look for your home, Eco Tech Glazing offer a choice of frame, threshold and sill options.

Frame Options

With our standard Chamfered frame style, you may select from a range of colours and woodgrains to individualise your door.

Multi-chamber profile

With 8 chambers, our multi-chambered frames give an impressive thermal performance as standard

Environmentally friendly frames

Lead-free profile and plastic thermal reinforcements (PTRs) are both thermally efficient and incredibly strong with the added bonus of being light and quick to install

Triple sealed

Our innovative system uses three gaskets to reduce heat loss and improve weather-tightness

Secure construction

With 72% better screw retention than through steel, PTRs offer more secure fixing of hardware keeping your frame rigid, stable and secure

1. PTR Reinforcement
2. Multiple chambers
3. Triple seals (Gasket & woolpile seals)
4. Lead-free PVC-U

Door Sizing Options

Our door sizes are dependant on the style you choose but most follow the sizing options below. A wide range of frame extenders and panels may be added for non-standard apertures.

	Min (N)	Min (S)	Max (N)	Max (S)
Width	804mm	840mm	984mm	1020mm
Height	1962mm	1980mm	2070mm	2088mm

NB The above heights do not include a sill, please add 35mm to each if a sill is required

Frame Colours

White on White

Rosewood*

Chartwell Green*

Cream* on White*

**Grained foils*

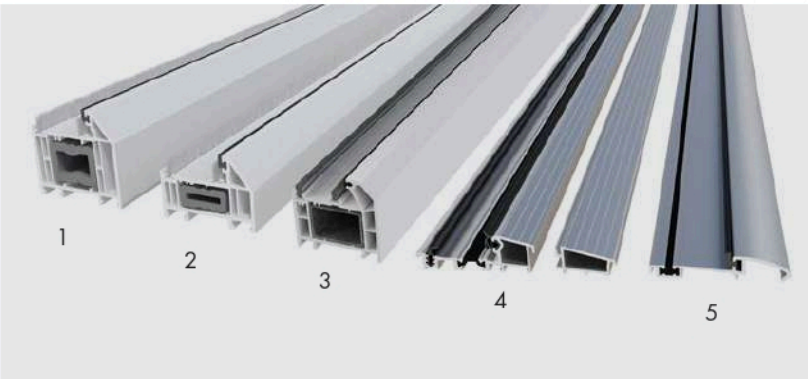

PVC-U Sill

1. 90mm stub sill
2. 150mm sill
3. 180mm sill

PVC-U sills will match your PVC-U door frame as standard.

Thresholds

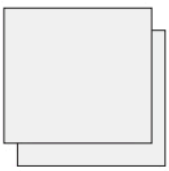

1. PVC-U threshold (Standard)
2. PVC-U threshold (Low)
3. Frame option for steel reinforcement
4. Aluminium threshold (Standard, with option of ramp)
5. Low aluminium threshold (Part M compliant)

You have a choice of thresholds from Solar Calibre. The standard offering is an aluminium threshold with a height of 25mm.

The low aluminium threshold is just 15mm high and creates a low step when your door is open. The low threshold is suitable for disabled and wheelchair access and is Part M compliant.

The standard PVC-U threshold provides a four sided door frame. When your door is open you will have a deeper frame to step over. However, the PVC-U option provides the tightest and most thermally efficient weather seal as the door sits behind the frame on all four sides.
